The Utili-Guard+™ Flammable Safety Cabinet is designed to address challenges faced by facilities that need to store flammable liquids securely and efficiently.

Limited Internal Capacity & Clutter

Unlock 28% more storage with the Utili-Guard+™ flammable safety cabinet. Its deep, door-mounted design gives you more room for flammable liquids, without sacrificing internal capacity.

Inefficient Access & Disorganized Storage

Our door-mounted, customizable storage keeps essentials front and center, no searching needed. Experience instant access and a streamlined, safer workflow.

Compliance Risks

Avoid costly penalties and protect your team with Utili-Guard+™ flammable safety cabinet. Engineered for OSHA, NFPA, IFC compliance, and FM approved, it keeps storage safe, secure, and always inspection ready.

Limited Floor Space

Revolutionize your space with our 2-in-1 design, maximized storage in a single, space-saving unit for all the capacity you need, without the clutter.

Cost Concerns

Get more with Utili-Guard+™ cabinets, extra capacity and organization for just 2–3% more than standard cabinets.

The Utili-Guard+™ Flammable Safety Cabinet Advantages & Features

Maximize Capacity, Boost Efficiency, Ensure Safety

Smarter Storage, Seamless Workflow

- **Extra-Deep Cabinet Design:** Up to 4" deeper, adding an average of 4.4 cubic feet of storage, more than standard cabinets.
- **Door Storage:** Keep essentials, like aerosols and bottles, at your fingertips.
- **Customizable:** Adapt to changing storage needs, no lost space.
- **Instant Organization:** Grab what you need fast, no clutter, no searching.

Built to Last, Designed for Safety

- **Rugged Build:** Double-wall steel with 1.5" air gap for top fire resistance and strength.
- **Lasting Finish:** UV and chemical-resistant powder coat fights corrosion and maintains your cabinet's clean, polished look.
- **Flexible Install:** Tower, skid, or leveling legs fit any workspace.

Safety & Compliance You Can Trust

- Meets OSHA, NFPA, and IFC standards.
- FM Approved for flammable liquid storage.
- Every unit passes a 30-point quality inspection before shipping.

Why Utili-Guard+™ Cabinets Outperform the Competition

Enhanced Safety Features

- Self-close doors with concealed mechanism for automatic, secure closure.
- Flame arresters safely dissipates heat and prevents flashback from external ignition sources.
- Maintains an internal temperature below 325°F (liquid flammable autoignition temperature) when exposed to a 10-minute fire test.

Superior Storage & Space Optimization

- Gain an average of 28% more storage than standard cabinets.
- Flexible interior fits bulk and small items.
- True 2-in-1: No second cabinet needed.

Cost Efficiency & Productivity Gains

- For just 2–3% more than standard cabinets, unlock up to 28% more flammable liquid storage.
- Boost productivity by 55% with faster access less searching, and fewer replacements.

Construction & Engineering Highlights

- 10-year warranty for long-term peace of mind.
- Leakproof 2" containment sump for spill control.
- Grounding protection to prevent electrostatic discharge.
- Scratch and chemical-resistant heavy duty reflective labels for emergency visibility.
